Price: \$40.99

Description

27.9 lb Bag - Mineral Springs Beginnings

What it does

Mineral Springs® Beginnings® is the first step in creating a mineral water bathing system in your pool. The essential elements of Mineral Springs® Beginnings® make it possible to fully enjoy the Mineral Springs® System. Mineral Springs® Beginnings® contains SilkGuard® technology that softens water and protects your pool, chlorine generator cell, and equipment from scale. It also contains SunShield® which protects the chlorine produced by your chlorine generator from being degraded by sunlight.

Features

- <10%* boric acid
- <5%* sodium hydrogensulphate
- pH 2.9
- Compatible with Mineral Springs® and saltwater systems
- High purity minerals for saline pools

- With SilkGuard® technology

Benefits

- Prevents scale formation
- Maintains soft, gentle, sparkling water
- With SunShield® protects chlorine from degrading due to sunlight
- Helps maintain water balance
- Use as needed

Directions for Use

Directions for Use

1. Adjust pH between 7.4–7.6
2. Add 1 bag of Mineral Springs® Beginnings® per 1,000 gallons of water.
3. Add evenly at the deep end of the pool with pump operating.
4. Brush any undissolved product from the bottom of the pool.
5. Temporary clouding may occur.
